Education

Sogang University, Seoul 2023 - present
BS in Physics and Mathematics

Canadian International School, Singapore 2018 - 2022
International Baccalaureate (IB) Diploma Programme

Technical Skills

Languages: Linux, Python, MATLAB, LaTeX, Mathematica, ROOT
Developer Tools: Neovim, VS Code, GitHub

Experience

Quantum Gravity and Holography Lab 2024 - present
Student Researcher *Center of Quantum Spacetime (cQuest)*

- Participated in two supergravity projects on AdS_4 blackholes and AdS_6 blackholes.

2025 CERN Summer School Programme June 2025
Participant *CERN*

- Participated in the 2025 CERN Summer School Programme.

Various Summer and Winter Schools 2023 - present
Participant *Various Institutions*

- 2024 Biophysics School (APCTP & POSTECH)
- 2024 & 2025 Numerical Relativity and Gravitational Waves Winter School (KASI)
- 2024 Workshop for Young Mathematicians in Korea (Seoul National Uni.)

Awards and Achievements

G-Lamp Grant Recipient April 2025 - August 2025
Research funded by the G-LAMP Program *Ministry of Education*

- Awarded grant support for undergraduate research in gauged supergravity solutions.

Honorable Mention May 2025
2024 Numerical Astrophysics Competition *KASI*

- Placed 3rd and received an honorable mention in the 2024 Numerical Astrophysics Competition held by KASI.

Excellent Youth Scholars Award Jul 2021
The 16th Korea Scholars Conference for Youth 2021 *Yonsei Uni.*

- Awarded a certificate for presenting an excellent research proposal and participating in academic exchange at the 16th Korea Scholars Conference for Youth, conducted from July 19th to 30th, 2021.
- Investigated methods of obtaining the Hubble constant and theoretically deducing the age of the universe by using the Friedmann equations and high-resolution spectroscopy.
